

## Erratum

## Errata of the paper “The semi-analytical snow retrieval algorithm and its application to MODIS data”

[Remote Sens. Environ., 111(2–3), 228–241]

M. Tedesco\*, A.A. Kokhanovsky

In our paper (Tedesco and Kokhanovsky, 2007), there are misprints in Eq. (5). The misprints did not affect results presented in the paper. The correct equation has the following form:

$$B = \frac{\varepsilon(1 + 2 \cos \vartheta_0)(1 + 2 \cos \vartheta)}{R_0(\vartheta_0, \vartheta, \varphi)}. \quad (5)$$

The authors are grateful to A. Lyapustin, who found these misprints after careful reading of the paper.
